Total for the Programme		240

*A, B – optional/elective courses.

The table does not specify which General Education courses in the categories A and B have to be taken in which semester because students create their individual schedules, depending on which courses in the C category, compulsory and elective, they are taking during a particular semester. Students are to take all the compulsory General Education courses (categories A and B) during the first two years of their studies.

Note: there might be some changes in the programme.
