Title
MIKROFONETIKA
Title in English
MICROPHONETICS

Subject annotation in English
This practical course provides not only the basics of English pronunciation and intonation but at the same time trains students in reading texts in linguistics. It introduces students to the main terminology in phonetics and phonology and teaches them how to apply the theory they have learned in practice.

Necessary background knowledge for the study of the subject
-

Study outcomes
The students will be able
- to apply theoretical concepts about phonetics and phonology to practical exercises;
- learn the basic aspects of Standard English speech;
- learn basic aspects of stress and pronunciation;
- learn basic aspects of intonation.
