

Lithuanian Student Identity Card (LISIC)

Lithuanian Student Identity Card (LSIC)

- Lithuanian Student Identity Card (LSIC) is the only **official document** that proves that you are a student.
- LSIC (LSP) gives you the right to take advantage of various opportunities: public transport concessions, necessary for study, student discounts.

LISIC is necessary for studying

- This certificate will allow you to use the library and other premises of the higher school, and if necessary, you will be able to reserve the inventory required for payments. You will also have access to a fitness center. You will probably need this certificate when taking exams or tests and connecting to higher education systems to find out the time of lectures, grades and all other necessary information.

Concessions for public transport

- LSIC will provide you with public transport benefits - this means that I travel with city public transport as much as 80% cheaper, and long-distance - 50% cheaper. Part-time students are not eligible for public transportation concessions.
- If you have an LSIC, you can no longer worry that you will forget your public transport ticket - the Vilnius card is already inscribed into your card, well, and if you are studying in Kaunas, we will do it if the student requires it!

Discounts and offers

- Full-time and part-time students with LSIC participate in the discount program, which allows you to use discounts for shopping, entertainment and various services throughout Lithuania - with LSIC you will receive **more than 250 different discounts** in cafes, shops, gas stations, travel and much more provided by the LSIC partnership program.
- More information about discounts with LSIC you can find [here](#).

LSIC ordering

- To order a Lithuanian student card, the steps are performed [here](#).

How to order LSIC (LSP)

- The status of the produced LSIC can be monitored on the website lsp.lt by logging in to your account.

LSP
