VILNIUS

1. **Museum of Illusions.** One of the most interesting museums in my experience is one where you can have fun with friends and take a lot of exciting photos. You will visit a historical building that is full of exciting illusions, a wonderful atmosphere, and responsive staff. This museum will be remembered by everyone, I promise). **Website:** <https://vilni.lt/en/>

2. **MO Museum.** For art lovers, this place will definitely not be left out. The collection in the museum consists of 6,000 modern works. contains the main Lithuanian works of art from the 1960s to the present day. **Website:** <https://mo.lt/en/>

3. **Open gallery.** Another very unusual place to visit, which I remember. This is an area where a lot of graphics are collected. In good weather, you can combine both a walk and cultural education. **Website:** <https://opengallery.lt/>

4. **Cat café.** The best place I found in Vilnius is a cafe with cats. There is a very pleasant atmosphere and friendly cats that you can pet. Just make a reservation before visiting; otherwise, you will not be able to communicate with new friends). **Website:** <https://kaciukavine.lt/>

All these places are located in the center, which allows you to quickly get from one to another. I wish everyone a good time, and do not forget to take your ISIC for generous

KLAIPEDA

The castle museum. This is an interactive museum dedicated to the history of the city and the castle, with interesting exhibits for all ages. It is located in the very center of the city, and you will definitely not pass it by.

Biržos tiltas. A bridge in the city center. If you like to walk a lot, then you will definitely see this bridge in the center of Klaipeda. There are many different sculptures in this area, and in principle, I think this is the liveliest area, and in the evening it looks even more beautiful.

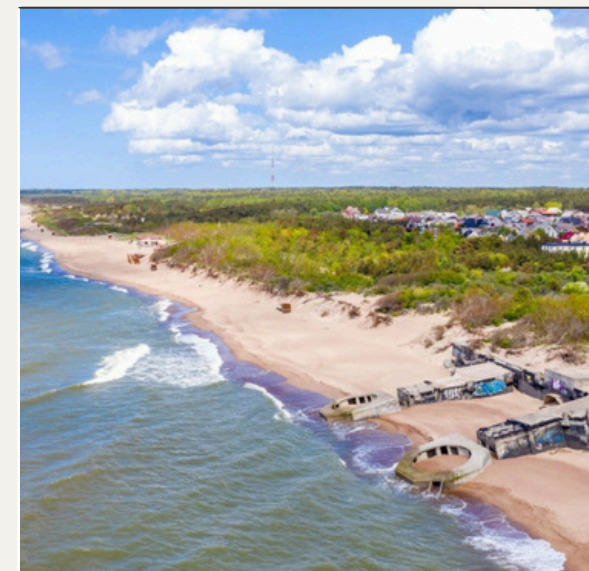

Melnrage papludimys. My top places are closed by this beach. If you are tired of the city bustle and want to go on a retreat, then you should definitely go to this beach. It is beautiful both in summer and in winter, where you can enjoy the silence and relax a little.
