

Minor study programme: *Italian Studies*
Faculty of Humanities

The aim of the programme	The program aims to provide essential knowledge of Italian studies, develop proficiency in correct Italian language usage, linguistics, translation, literature, and intercultural communication. These skills will enable graduates to independently deepen their understanding of Italian and other Mediterranean cultures and languages, as well as apply their acquired communication and cultural competencies in various professional and practical contexts.
Acquired competencies and programme results	Graduates of this program will be able to: <ul style="list-style-type: none">• Speak and write fluently in standard Italian at the B2/C1 level; use appropriate lexical and grammatical structures; create and interpret various types of texts;• Systematically analyze cultural, artistic, social, and historical phenomena of Italy and other Mediterranean countries;• Apply their skills in Italian language use, linguistics, literary and translation analysis, as well as intercultural and professional communication in practical contexts.
